When Super Storm Sandy hit, it was disaster...from many perspectives. Not only was it logistically difficult to prepare and file claims, it was also time consuming and complex. As a professional woman, it was a pleasure to work with Rick and his team. They were knowledgeable and very effective with regard the rules and regulations governing claims for covered property loss.

I highly recommend Rick Tutwiler and Associates... they are true professionals with the added bonus of being well respected by others in the industry.
